

**IN THE NEIGHBORHOOD**  
**“From State and Screen”**

by Pat Winter

The Albemarle Chorale is busily preparing its spring concert, “From Stage and Screen.” Led by Lynwood Winslow, it will perform musical selections taken from screen and stage, including a medley from “My Fair Lady,” “Masquerade,” and “Phantom of the Opera.”

The first concert will be at 4:00 p.m. on Sunday, April 28, at the Edenton United Methodist Church, 225 Virginia Road in Edenton. The second, also at 4:00 p.m., will be at the Perquimans High School auditorium, 305 S. Edenton Road Street in Hertford. Admission is free, and donations are appreciated.

The Albemarle Chorale, composed of nearly sixty choristers from Perquimans, Pasquotank, and Chowan counties, rehearses weekly at Edenton United Methodist Church. Eleven Albemarle Plantation residents help to make up the chorale’s roster.

The concerts, presented both at Christmas and in late spring, feature a repertoire ranging from classical works to sacred and popular music. This spring’s concerts will present a variety of show tunes, many of which have become classics. They will open with a rousing rendition of “It’s a Grand Night for Singing” from *State Fair*. Other selections range from the jazzy “I’ve Got Rhythm” from *Girl Crazy*, to the dreamy “Moon River” from *Breakfast at Tiffany’s*. Michael Morgan accompanies our musical selections on the piano and is joined by chorale member Ann Mikan for a rousing four-handed “Happy We” from the Handel opera *Acis and Galatea*.

For more information about the Albemarle Chorale, our director, members, and concert programs, follow us on our Facebook page, “Albemarle Chorale.” Don’t forget to “like” us and to share this page with your Facebook friends.

We hope you will join us for an afternoon of grand music that you will be humming al the way home.

.....

Additional Notes:

**Local knowledge for approach to Edenton Bay Harbor**

Two large water tanks in the town are the most prominent objects from the sound. Also prominent is a radio tower near the city wharf. A dredged channel leads from deep water in Albemarle Sound to the head of the bay where it separates into dredged reaches leading in northwesterly and northeasterly directions along the town waterfront. The channel is well marked by lights and daybeacons.

The town dock, at the head of the entrance channel, is marked by a light. In 2013, a depth of 8 feet was reported alongside the dock. Available amenities include berths, pump-out station, electricity, water and ice. A fish wharf and an oil wharf are close westward of the city wharf; depths of 10 feet were reported alongside in 1983.
